

Quick Start

Building on Patterns Kindergarten, Second Edition

Thank you for choosing the *Building on Patterns Kindergarten (BOP-K)* curriculum. Here are a few things to know right away to help you begin.

- Items to start with in the Teacher Kit:
 - As an introduction to the program, read the three Getting Started sections in the first volume of the *Teacher Manual*:
 1. Getting Started: Program Overview
 2. Getting Started: Preparation Guide
 3. Getting Started: Instructional Strategies
 - We also recommend reading the *Teacher of Students with Visual Impairments Booklet*.
 - Read the Introduction in the *Assessment Booklet*, review the chart of assessments that follows it, and scan through the forms.
- Items for Parents and Classroom Teachers:
 - Give the *Parent Booklet* to the child's family.
 - Give the *Classroom Teacher Booklet* to the child's classroom teacher.

There is a Kindergarten Teacher Resources page for *BOP-K* online at www.aphbop.org. Visit this website for information on instructional strategies, photos and videos, sample assessment forms, kindergarten literacy standards, and more.
